**P31 CHAIR BY OSVALDO BORSANI**

\$1,540

## DESCRIPTION

Part of "ABV Collection", this chair, designed in 1957, exemplifies Osvaldo Borsani's predilection for clean designs with a secret detail that makes them exceptional. The soft-contoured wooden seat is sustained by a tripod base where each leg is composed of two thin steel tubes, the same black-painted structure repeated as support for the backrest. Easy to disassemble and fold away, this chair was disruptive at the time of its debut and remains so since it provides smart seating with minimum effort.
