

LIGHTING : TABLE LAMPS

StoneLab Design

PACHI TABLE LAMP

\$850

DESCRIPTION

This sophisticated table lamp is simple and minimalist in its shape so that the protagonist remains the stone: a luxurious piece of white Carrara marble with an opaque, smooth finish. The natural veins of this noble material give uniqueness to each lamp, which is hollowed out completely with the exception of its base, to keep it stable on the surface it rests on. This magnificent object comes with an LED 11W 1055 Lumen lightbulb.
