## PAGODA VASE

\$620

### DESCRIPTION

Part of the Pagoda series, this silver-plated metal vase will add a sophisticated touch to both a traditional or modern living room decor. The tall and dynamic silhouette is characterized by the rippled lines reminiscent of tiered pagodas from South and East Asia. The vase boasts two distinct shapes, the bottom half defined by solid sides that flare out from a narrow base, and a smaller vase with a smooth surface and fluted edges that tops the entire piece: this visual and textural distinction enhances the dynamic timelessness of the piece.
