PALACE CHAIR BY GEORGE SOWDEN

\$1,390

DESCRIPTION

This sophisticated design was created by George Sowden in 1983 for Memphis. Eclectic and elegant, this chair will be a striking addition to a contemporary dining room or modern study, making a statement thanks to its rigorous geometric silhouette with some elements highlighted by a bright color. The wood is lacquered in black with the exception of the blue legs, the green armrests, and the top of the backrest in yellow.
