PALAZZO SINGLE CANDLE HOLDER

\$1,510

DESCRIPTION

A classic silhouette with a modern twist, this lavish candle holder is an homage to the stylized ornamentation of Italian palazzos. The square frame, made out of beige travertine limestone, is accented by large circular inserts in white leather embedded on all four sides. The candle holder itself is made using frosted borosilicate glass, producing a subtle, light diffusing effect. By itself or in a set, its simplicity and graphic allure make this piece a timeless addition to any home decor.
