PALAZZO VASE

\$3,230

DESCRIPTION

Perfect for flowers, this vase is a sophisticated accent on an entryway console or study desk. Made out of prized travertine beige limestone, the rectangular silhouette of this vase is accented with large circular inserts in black nappa leather on all four sides and a borosilicate glass interior lining. The combination of materials and colors adds textural harmony to the work. A classic silhouette with a modern twist, the clear geometry and graphic allure of this vase is inspired by Italian palazzos.
