Lucia Cavalli

PALLA DECORATION

\$140

DESCRIPTION

Crafted of "terraglia bianca" this sculpture was made using traditional methods typical of the ceramic production of the town of Lodi, near Milan. Made in the shape of a sphere, it was finished with a ceramic black slip and wax to obtain the irregular black and white decorative pattern that graces its smooth surface. A striking addition to a contemporary or industrial home, this unique piece will make an elegant statement either alone or combined with the Palla Sculpture.
