\$41,720

DESCRIPTION

This classic long rug draws its inspiration from the oculus in the iconic Pantheon in Rome. Rendered entirely in black and white threads, this rug is composed of circular and rectangular garlands surrounding a central oculus in white and is finished with golden fringes. This impressive rug is part of a limited edition of ten pieces designed by Studio Job in 2011 and is hand-knotted in Nepal using wool with 256 knots per inch and a 5mm-high pile.
