DESCRIPTION

This superb decorative object can be used as vessel for flowers or as is, as unique sculptural piece. It was crafted by of terra-cotta entirely by hand, without molds or mechanical tools, and fired twice in the kiln to obtain its elegant enamel finish. The conical silhouette is adorned with a series of scale-like elements wrapped in layers around its exterior, creating unique effects with the surrounding light. Each piece is a one-of-a-kind work of art, numbered and signed by the artist. Every variation in color and size is to be considered precious mark of an artisanal object.
