BIRDS OF PARADISE DINNER PLATE #1

\$105

DESCRIPTION

A lavish and colorful addition to any decor, this stunning plate is part of the Birds of Paradise Collection, featuring six different designs depicting birds of paradise perched on hand-painted palm leaves. In this case the ceramic surface, painted a deep burgundy color, is decorated with a magnificent bird, particularly majestic because of its tail, made of a fluffy yellow plumage and thin red feathers, sinuously curving underneath. Ideal as decoration, this piece is introduced at Milan Design Week 2018.
