BIRDS OF PARADISE DINNER PLATE #3

\$95

DESCRIPTION

This stunning piece of decor will add elegance and sophistication to any home, thanks to its masterful craftsmanship and refined design. Part of the Birds of Paradise, introduced at Milan Design Week 2018, this ceramic plate features a deep red background enriched by the outline of a palm leaf both painted by hand. Adding dynamism and a pop of contrasting color to the piece, a striking bird of paradise is depicted spreading its delicate white wings over a blue body and elongated decorative tail feathers.
