BIRDS OF PARADISE WHITE DINNER PLATE #1

\$90

DESCRIPTION

Part of an exquisite collection of superb ceramic plates introduced during Milan Design Week 2018 adorned with birds of paradise, this piece will be a stunning addition to a dining room. The silhouette of a palm leaf creates a stunning geometric decoration over the white background. On the leaf, a colorful bird spreads its wings, adding a warm yellow and red glow. Either displayed with identical ones, or combined with others from the same series, this plate will make an elegant statement.
