## PARENTI SERPENTI EARRINGS

\$4,190

### DESCRIPTION

Named after a movie by Mario Monicelli, this elegant pair of earrings is enlivened by a vibrant sense of movement, initiated by the posts shaped as serpents with small diamonds. Entirely made of 18k yellow gold, each post supports an asymmetrical element loosely shaped like a drop that encloses a tourmaline with a cabochon cut, while a peridot hangs at the bottom.
