## PEACOCK FEATHERS RECTANGULAR TRAY

\$680

### DESCRIPTION

Featuring a flat, rectangular shape, this ceramic tray is created by artisans who apply age-old methods to meticulously shape and paint the motifs distinctive of the time-honored Deruta majolica tradition. Very fine brushes and skilled hands are necessary to decorate every centimeter of the tray's ivory surface with the captivating radial pattern of light blue peacock feathers. Slight differences are to be expected as each piece results from an exclusively handcrafted process.
