JEWELRY : BRACELETS

Giulia Barela

PEBBLES BRACELET

\$530

DESCRIPTION

The Pebbles Bracelet is a sculptural jewel adding refined light to every bare skin. The delicate and precious handwork makes this jewel a piece of art with surprisingly light. The almost feather-like weight of the jewels is inspired by the shape of Pebbles. Human connection is the overarching theme of the collection: the jewels are composed of full and empty spaces, linked to one another. The irregularities and the tiny pebbles allow a flow of light that vibrates and creates something special.
