**PEONIA PANEL #10**

\$1,410

## DESCRIPTION

This superb decorative panel part of the Rifiorire Collection (meaning "to bloom again") merges sophisticated carving techniques to obtain the central peony, minutely carved out of maple wood, the petals partially stained in an ice-colored tone. The background, stained in a deep shade of black, maintains the charm of the wood's grain untouched. The natural finishing enhances the whole design, which may feature slight flaws deriving from its true, artisan manufacturing process.
