Poletti Intarsi

PEONIA PANEL #6

\$1,410

DESCRIPTION

Poletti Intarsi's skillful artisans use their manual artistry to craft enchanting decorative panels like this one, part of the Rifiorire Collection (meaning "to bloom again"). The square background is made of Californian walnut briar showcasing its striking grain, while the central peony is obtained through a minute carving process carried out merging natural maple and maple stained in an ice-colored hue. Any potential, slight flaw has to be considered as proof of the piece's artisan quality.
