Adriana Lohmann

PERLE GALACTICA BETA PENDANT LAMP IN LILAC AND COGNAC

\$670

DESCRIPTION

A thin frame in chrome-finished metal sustains this stunning pendant lamp, whose charm derives from elegant, hand-tied strands of lilac- and cognac-colored beads. The E27 bulb is hosted in a diffuser that softens its light, which sublimely reflects onto the acrylics beads, creating a seductive ambiance. Other finishing options are available for the frame, such as gold and copper, please ask the Concierge for details.
