PESCE PALLA RED SCULPTURE

\$720

DESCRIPTION

This graceful sculpture is from the Bestiario OGM collection of handcrafted pieces that mix ceramic with everyday objects re-purposed into a new form and function. Depicting a puffer fish, the head, fin, and trumpet-shaped tail are handcrafted of white grès with a vivid red glaze, and are assembled on a glass vase with a round body accented with engraved scales. The sculpture rests on a truncated cone base. An appealing showpiece in any room of the house, this piece will be a well-received gift as fishes are thought to bring good fortune.
