Luca Leandri

PESCI SET OF SIX PLATES #6

\$550

DESCRIPTION

A dynamic combination of drawing and ceramic, this exceptional plate will be the focal point of any modern collection. Reminiscent of Expressionist drawing and themes, this plate features a mirror image of a fish head accompanied by animated writing on the continuous body. The yellow and black outline of the fish contrasts with the green-gray color and splatters around the piece, creating a visually dynamic work of functional decor. These plates express the endless bounds of creativity and will never go out of style. It is possible to customize the set by selecting six different motifs.
