PETIT ORANGE CANDLE HOLDER

\$290

DESCRIPTION

A perfectly essential design that will fit instantly in any interior decor, this modern accent piece is defined by a minimal design with a thin iron bar (4 mm) balancing three 10-cm, cylindrical components that hold the candles. The asymmetry created by two candles on one side and one on the other, adds dynamism to the piece and an unexpected balance between all the different components. Finished in vivid orange, this candle holder adds a touch of color on a modern console in a living room or foyer and will be a splendid centerpiece on a dinner table on special occasions.
