PHILTRUM TABLE LAMP

\$550

DESCRIPTION

Marked by a minimalist design, this stunning lamp combines a decorative and functional purpose, diffusing light and perfume at the same time for an unexpected experience. This lamp from the Philtrum Collection was designed in collaboration with Tonatto Profumi, a Turin-based perfume maison, and features a cylindrical lampholder with a semi-spherical decorative element entirely crafted of brass with a satin finish. The standout feature is the lampshade, made of the same filter paper used by master perfumers, imbued with fragrance. A truly unique piece to display anywhere in the home.
