PHOENIX CLASSIC RUG

\$8,780

DESCRIPTION

Reminiscent of Matisse's fauvist masterpieces, this piece features a colorful phoenix gliding through a vibrant, fanciful landscape. Its elongated body and bold, red wings elegantly contrast with the cerulean-blue sky and the mustard-yellow landscape. The dynamic, impressionist color gradients are achieved by hand knotting wool and bamboo fibers according to Tibetan customs. A whimsical work of art, this piece will enliven any bedroom or study decor with modernist charm. Customization upon request.
