Geminiano Cozzi Venezia 1765

PI-ATUM MEDIUM COOLER/ICE BUCKET WITH LID

\$640

DESCRIPTION

Based on the original "rinfrescatoio" by Geminiano Cozzi intended to keep fruit and other foods fresh on the table, this refined piece is composed by two stacked pieces: a top lid and the actual ice bucket with handles. Part of the collection *Ethnics*, designed by Gianpiero Mastro, this piece is inspired by the ancient masks of different cultures. Behind it there is a careful research of colours and stylistic elements, according to the canons of Geminiano Cozzi who creates a marriage between the ancient Venetian tradition of porcelain and the cultures of this increasingly global world accompanying the "rinfrescatoio" in a path that transforms it into an object of cult and collection.
