PIASTRINE TABLE LAMP

\$3,735

DESCRIPTION

Showcasing an elaborate body composed of polished brass plates connected to the slender stem by means of round circles of clear Plexiglas, this sculptural table lamp is a true work of art of great aesthetic balance and visual harmony. The asymmetrical display of the plates allows the light, diffused by two E27 max 60W (not included) enclosed in the square ivory shantung shade (40 x 40 x H. 40 cm), to reflect off of the warm brass with captivating reflections.
