## PIATTO LOW ROUND SIDE TABLE

\$2,520

---

### DESCRIPTION

This unique, low side table can be used alone to enrich a contemporary living room or it can be combined with other pieces from the same Piatto Collection. Entirely made of steel, this piece was designed by Sam Hecht and Kim Colin. Its architectonic structure plays with rigorous and geometric volumes for an eye-catching effect. A single stainless steel leg with shoot-peened finish supports a top, which bends at 90-degrees on both sides. Both the top and vertical elements have a striking black matte finish that contrasts with the stainless steel's natural finish.
