PICCHIO SCULPTURE BY LANZAVECCHIA&WAI

\$140

DESCRIPTION

This strikingly unique sculpture will make a statement in any contemporary or rustic home, thanks to its exquisite craftsmanship and the whimsical subject designed by Lanzavecchia&Wai. Entirely made of untreated cedar, this decorative object is a stylized depiction of a section of a tree trunk with a woodpecker hiding in it. The one-of-a-kind grains of the wood add an organic decoration to its surface, while the small bird is rendered with simple, geometric volumes and two holes for the eyes.
