\$660

DESCRIPTION

Available in three sizes and modern, vibrant colors, this side table is a versatile choice for any interior, both residential and commercial. Designed by Claesson Koivisto Rune, this side table is made of steel and is composed of two oval tops connected by three high-gloss chromed steel rods. Simple yet striking, the tops are the distinctive feature of this piece, as they are painted on both sides in contrasting colors (jade green and orange) so that can be flipped upside-down to complement each other in any room.
