PITAGORA PENDANT EARRINGS

\$21,120

DESCRIPTION

This stunning pair of pendant earrings is named after the Ancient Greek philosopher Pythagoras, the prominent thinker whose iconic theorem is evoked in the pure geometric elements that characterize these earrings' dynamic profile. The yellow gold structure is entirely adorned in brown diamonds (11.89 carats total), with a spherical dangle covered in diamonds (.27 carats each). This striking set will bring luxury and sparkle to evening attire, making it a perfect accent piece to wear to a black-tie event or formal reception.
