## PLAC T300 SCONCE

\$340

### DESCRIPTION

Dynamic and unique, the design of this sconce will offer a textural decoration to a wall when off and glowing reflections when on, thanks to the sinuous curve of its body. Entirely made of steel with a brushed bronze finish, the structure of this piece features a wave-like element attached to the base of the bulb holder, pierced at the top by the bulb itself. This lamp is class II IP20. The voltage is 220-240V/50Hz (max 12W LED E27) with one T300 4W LED dim 2000K 200LM bulb (included). This elegant piece is also available with a satin gold, satin copper, or satin nickel finish upon request. For 110V bulbs not included.
