Atelier Brume

PLAYMO VASE

\$2,715

DESCRIPTION

Part of the "Amuletos Collection", Playmo is inspired by the design of children's toys, combined with the ancestral African Goddess's fi. A unique handmade piece, this sculptural vase is created with dark brown stoneware, using the coiling technique. On the surface, the fingerprints left on purpose by the artist, are painted with several uneven brush layers of azure color, creating brightness and texture. For decorative purposes only, not waterproof.
