Cleto Munari

POLIFEMO UNO VASE BY RICCARDO DALISI

\$720

DESCRIPTION

This unique vase will make a striking visual statement when placed in any room in the home. Its base features a rectangular shape with a triangular arch in its bottom center, giving the appearance of two legs. On the top, the addition of an eye was placed in its center (evoking the giant mythological creature that gives the object its name), topped with a decoration, which is covered with a layer of pure gold. This vase was entirely crafted in ceramics and is an original design by Riccardo Dalisi.
