## POLKA WHITE DOTS SIDEBOARD BY TOYO ITO

\$5,285

### DESCRIPTION

Mesmerizing and unique, this sideboard by Toyo Ito is inspired by the minimalist graphics evoked in the Za-Koenji theatre in Tokyo (2005-2008). The structure and doors are made of MDF, while the internal shelves are covered with 5 mm-thick transparent tempered glass with a beveled edge, and are enriched with LED lights (input 100- 240V - Europlug CEE 7/16) that create a captivating interplay of shades and lights radiating from the methacrylate disks characterizing the front. The piece is supported by four angled feet made of ABS, a very strong and durable thermoplastic (H 2 cm).
