## POLKA RED DOTS SIDEBOARD BY TOYO ITO

\$5,420

### DESCRIPTION

A tribute to Toyo Ito on the occasion of the 2013 Pritzker Architecture Prize, Horm brings back one of the most iconic products of the Great Master. Inspired by the minimalist graphics evoked in the Za-Koenji theatre in Tokyo, the structure and doors are made of MDF, and the internal shelves of tempered glass (5 mm). Internally furnished with LED lights (input 100- 240V - Europlug CEE 7/16) radiating from the methacrylate disks on the front, this piece will infuse any interior with a mesmerizing interplay of shades and lights. It is supported by four angled feet made of ABS (H 2 cm).
