Arnolfo di Cambio

POLYGON SMALL CANDLESTICK BY CATYA CASTEL

\$220

DESCRIPTION

This elegant candlestick is the shortest version of the three pieces by Catya Castel designed for Arnolfo di Cambio in 1979. Entirely made of crystal, the silhouette is sculptural and refined, with a square base and a thin body flaring outwards at the top. Equally stunning in a modern or classic interior, this piece can be displayed along its larger companions to create a dynamic showcase in which the candlelight will reflect off the crystal, creating striking effects.
