PONZA GOLD-BRONZE BLUE RING

\$90

DESCRIPTION

This elegant ring is named after the stunning island of Ponza, off the coast between Rome and Naples. Its sleek and unique structure is inspired by the traditional architecture of domed houses seen perched atop the cliffs of the Mediterranean sea. It is entirely crafted of bronze with a gold plating, and its thin band is enriched at the top with the silhouette of one of these quaint houses, highlighted with blue enamel. This ring is a refined choice for everyday elegance.
