PORTALI 12 VASE BY ANDREA BRANZI

\$1,340

DESCRIPTION

Part of the Portali collection by Andrea Branzi, this vase was made in white ceramic in a limited edition of 50 pieces that are all numbered and signed. The delicate square frame encapsulates a waving vertical vase that seems to be part of an aquarium where small fish liberally swim. The composition can emerge from the frame invading the space above and creating a means of communication between this micro-cosmos and the environment outside it.
