## DESCRIPTION

Entirely made in white ceramic, this vase is part of a limited 50-piece series, numbered and signed and created by Andrea Branzi as part of Portali, a collection of 18 vases all encapsulated within a square frame. Each vase is a micro-architecture and in this case, inside and above the square frame, there are a total of six charming micro-vases, all in different shapes, that will create a myriad of decorative combinations.
