PORTALI 9 VASE BY ANDREA BRANZI

\$1,340

DESCRIPTION

Modern and sophisticated, this vase was designed by Andrea Branzi as part of the Portali collection, featuring white ceramic micro-architectures enclosed in square frames. In this case the square encapsulates a pierced vase whose many irregular holes can host single stems for unique arrangements. The piece is part of a 50-item limited collection, numbered and signed, and can be paired with other vases in the Portali collection.
