Prince of Sun Amalfi

POSITANO CARAFE

\$310

DESCRIPTION

Handcrafted of ceramic and painted by hand, this stunning carafe is inspired by the cliff-side village of Positano on the Amalfi coast, with its charming narrow streets lined with boutiques and cafes. The asymmetrical spiral shape of the piece, elegantly elongated, is adorned with stripes of white and blue enamel that highlight its unique silhouette. The interior is covered in white enamel, while the bottom is accented with white enamel boasting a blue effect that evokes the color of the sea. This is an ideal vessel to serve a chilled drink or a good Neapolitan-style espresso.
