PRIMAVERA DINNER PLATE

\$370

DESCRIPTION

Inspired by the delicate, pastel colors blooming in spring, this elegant dinner plate is made of porcelain entirely by hand without the use of molds. The paint is carefully dripped on the ivory white surface creating intriguing nuances in pale-blue, apple-green, and grass-green for a stunning decoration that will enliven a modern dining table. The design is completed with a precious gold rim fixed on the plate with a third firing in the kiln at high temperatures. Due to its hand-crafted nature, each plate will slightly vary in size and color gradients and intensity.
