PRISM GLASS CHAIR BY TOKUJIN YOSHIOKA

\$4,730

DESCRIPTION

Part of the Prism Collection by Japanese designer Tokujin Yoshioka, this contemporary, sculptural chair is a masterpiece of shimmering elegance and balanced proportions. Crafted of 19mm-thick, high-transparency tempered glass, the thermo-welded panels are marked by special beveled edges, whereby the light bends as it passes through the glass creating a rainbow of colors across the surface like a light-refracted prism.
