## PROIEZIONI ROUND BLACK AND WHITE MARBLE COFFEE TABLE BY ELISA OSSINO

\$7,670

### DESCRIPTION

Inspired by the geometries created by the light reflections on the natural stone, the Proiezioni collection includes tables distinguished for the geometric patterns of their tops. This side table is entirely crafted of black Marquina marble with a pillar base, and features a round top with a white Carrara marble inlay in a semicircular shape that evokes the image of a beam of light projected on the surface. Displayed in an entryway with a contemporary lamp or in a living room next to a monochromatic sofa, this side table will add a glamorous and sophisticated touch.
