PSYCHE BLUE AND GOLD TABLE LAMP

\$4,265

DESCRIPTION

Psyche lends her name to a sophisticated network of art, myth and design. Reinventing the classics is an old game, at least as old as the art of Giulio Romano, Renaissance genius and Raphael's pupil, who made dazzling architectures for Palazzo Tè in Mantua. The light sculpture Psyche draws from Giulio's own ideas: brightly-colored ceramic revisits the ancient vase from the joyful, sensual banquet scene frescoed in the Chamber of Cupid and Psyche, and lights it up with the latest LED technology.
