Vito Scamarcia

QUADRIFOGLIO TABLE

\$7,130

DESCRIPTION

Named with the Italian word for a four-leaf clover, this table is a striking addition to a modern or eclectic interior. It is entirely crafted of fir, and its shape comprises a central octagonal pillar supporting a top distinctive for its four semi-circular sides. The standout feature of this piece is its lacquer decoration, combining navy blue, pale blue, white, and yellow in a kaleidoscopic series of geometric elements that will imbue with lively dynamism any room in the house.
