QUADRO 1-DOOR DISPLAY CABINET #1

\$6,650

DESCRIPTION

Resting on four metal feet, this sideboard will easily be the focal point in any room thanks to its thoughtful and elegant design. The plywood frame is veneered in prized natural texwood, while a stunning "Klimt" finish graces part of the front glass-panels, which reveal an ample storage unit organized into shelves of smokey glass, same material composing the three front doors. A refined LED system enlivens the interior with its subtle light. The piece is widely customizable, please contact the Concierge for options.
