QUADRO BRAIDED LEATHER AND COPPER BEIGE CROSSBODY BAG

\$1,585

DESCRIPTION

Far from being a simple accessory, our Leather and Copper Crossbody is a perfect mix of practicality and elegance with its traditional expandable side. It is crafted with high-quality Italian calfskin that is vegetable tanned, dyed with non-toxic, water-based colors, and woven with thin copper wires on our exclusive looms. Minor imperfections and color shades are typical of the natural raw materials and of the unmistakable singularity of a product that will age with time.
