QUADROTTTO XL1 SMALL01 VASE BY PAOLA NAVONE

\$240

DESCRIPTION

Designed by Paola Navone and part of her Quadrotto collection, the elongated cylinder in double-thick glass of this elegant and playful vase is adorned throughout with a series of asymmetrically shape squares and rectangles of different sizes that cover the transparent surface without saturating it, adding a dynamic accent to the piece and allowing the silver decoration to give sparkling reflections interacting with the surrounding light.
