TABLETOP : TABLEWARE

Geminiano Cozzi Venezia 1765

QUART-HADAST SMALL COOLER/ICE BUCKET WITH BOWL AND LID

\$525

DESCRIPTION

Based on the original "rinfrescatoio" by Geminiano Cozzi intended to keep fruit and other foods fresh on the table, this refined piece is composed by three pieces: bottom, dome-shaped lid and bowl to maintain caviar, fruit, or delicacies at optimal temperature. Part of the collection *Ethnics*, designed by Gianpiero Mastro, this piece is inspired by the ancient masks of different cultures. Behind it there is a careful research of colours and stylistic elements, according to the canons of Geminiano Cozzi who creates a marriage between the ancient Venetian tradition of porcelain and the cultures of this increasingly global world accompanying the "rinfrescatoio" in a path that transforms it into an object of cult and collection.
