QUERCUS TABLE

\$6,000

DESCRIPTION

An ode to rigorous geometry and contemporary design, this table will make an elegant statement in any modern home. Thanks to its moderate size, it can be a splendid addition in a small dining room where it will be the standout element. Its square top is a precious slab of black marble 2 cm deep, distinctive for its irregular edges that give it a one-of-a-kind quality. The base is made of iron with a striking gold varnish that adds a timeless color combination to the piece.
